PROFESSIONAL SUMMARY

Results-driven Software Developer with 1 year of hands-on experience in backend and full-stack web development. Proficient in PHP, Laravel, Node.js, Express.js, React.js, Django, MySQL, and MongoDB. Completed a Software Developer internship building ERP solutions, designing RESTful APIs, and optimizing relational databases. Strong foundation in software architecture, JWT authentication, database design, and scalable web application development.

TECHNICAL SKILLS

Languages: PHP, JavaScript, Python, Java, SQL
Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, React.js, AngularJS, jQuery
Backend: Laravel, Node.js, Express.js, Django, RESTful API Design
Databases: MySQL, MariaDB, MongoDB
Tools & Others: Git, GitHub, Postman, VS Code, JWT Authentication, API Testing, Clean Architecture

PROFESSIONAL EXPERIENCE

Software Developer Intern | Parthvitech Innovatives LLP *May 2024 – April 2025*

- Developed and maintained ERP modules using Laravel, PHP, React.js, and MariaDB, reducing processing time by improving module efficiency.
- Designed and implemented secure RESTful APIs; integrated frontend React.js applications with backend services to enable seamless data exchange.
- Optimized database schemas, SQL queries, and indexing strategies, improving query performance for enterprise-grade applications.
- Implemented JWT-based authentication and role-based authorization mechanisms to secure enterprise application endpoints.
- Debugged production issues, conducted peer code reviews, and adhered to clean architecture principles across the development lifecycle.

PROJECTS

- **BizPilot CRM:** A professional CRM and invoice management application built with Laravel and Tailwind CSS. This project is designed to help businesses create elegant invoices, manage customers and products, generate PDFs, and track payments through a modern web interface.
- **MERN E-Commerce Platform:** Built a full-stack e-commerce application using MongoDB, Express.js, React.js, and Node.js. Features include JWT authentication, role-based access control (admin/user), order management system, and admin dashboard.
- **Resume Builder Application:** Developed an ATS-optimized resume builder with live preview, PDF export functionality, responsive UI, and local storage support for saving drafts.
- **Password Manager:** Created a secure CRUD-based password management application with password strength analysis, encrypted storage, and data export functionality.

EDUCATION

Master of Computer Applications (MCA) | CHARUSAT University *2025 – 2027*

Bachelor of Computer Applications (BCA) | Navrachna University *2022 – 2025*
